Competition Format and Rules

Formato e regras da competição

As of WED 31 AUG 2016

Paralympic competition format

The triathlon competition at the Rio 2016 Paralympic Games will have six medal events as follows:

Women	PT2	PT4	PT5
Men	PT1	PT2	PT4

The competition format is the same for the men's and women's events, with the following distances:

- Swim: 750m – one lap
- Bike: 20.92km – four laps of a 5.23km course
- Run: 5km – two laps of a 2.5km course

The event is continuous with no breaks in competition. In both the men's and women's events the first athlete to complete the course is declared the winner.

The women's PT5 event is run with a compensation time for some of the athletes that belong to a sub-class within the given sport class. In the PT5 sport class, there are three sub-classes (B1, B2 and B3).

Please refer to the International Triathlon Union (ITU) competition rules to determine the value of the compensation time.

Athletes in specific sport classes may be allowed the use of personal handlers during the transitions. More information can be found in the ITU competition rules.

Drafting, when one rider is directly behind another benefiting from an area of reduced air pressure, is not allowed during the bike segment.

Sport rules and procedures

The triathlon competition will be held in accordance with the editions of the following documents that are in force at the time of the Games:

- ITU competition rules (available at www.competition.org/about/downloads/category/rules)
- ITU Para-triathlon classification rules and regulations (available at www.competition.org/about/downloads/category/rules)
- The IPC handbook (available at www.paralympic.org/the-ipc/handbook)

The ITU, working with Rio 2016 competition management, will be responsible for the technical control and direction of the triathlon competition at the Rio 2016 Paralympic Games.

Changes since the London 2012 Paralympic Games

Rio 2016 will be the first time that triathlon will be undertaken at the Paralympic Games.

Differences from the Olympic Games

- There are three individual medal events for each gender, making a total of six medal events in Paralympic Games compared with one for each gender and a total of two in the Olympic Games.
- Some sport classes operate with a compensation time in their sport class for specific athletes in a sub-class to allow for fairer competition.
- There are trained water exit handlers to assist certain athletes to exit the water at the Paralympics.
- In the Paralympics there is an area called pre-transition where athletes receive assistance upon exiting the water to access specific equipment or devices related to their impairments in order to reach the transition area in a more effective way. Athletes from the sport class PT1 are allowed two personal handlers in this area. All other personal handlers must wait for the athletes in the transition area.
- Drafting is not allowed in the bike segment. Drafting for PT1 athletes is not allowed in the run segment.
- Some athletes are allowed to have personal handlers in transition to assist with specific needs the athlete might have.
